

**Speaker Guidelines for the VIROCON2016 and International Conference on
Global Perspective in Virus Disease Management:
8-10 December-2016; ICAR-IIHR, Bengaluru**

The PowerPoint Presentations of your Talks (KT: Keynote Talks, LT: Lead Talks & OP: Oral Presentation) should be provided to the VIROCON2016 Organizing Committee in a Memory Stick (Pen/Flash Drive), at least a session before, for it to be uploaded in a Computer/Laptop (with Windows).

Use of your personal laptops is not advisable to avoid loss of time during change of laptops and other works to be done. To protect your unpublished work, if necessary the respective speakers may delete their presentation files after their talk is over.

The Time allotted for Talks is as:

Keynote Talks (KT):

30 minutes: 25 minutes talk + 5 minutes for discussion.

Lead Talks (LT):

22 minutes: 19 minutes talk + 3 minutes for discussion.

Oral Presentation (OP):

10 minutes: 8 minutes talk + 2 minutes for discussion.

It is important to maintain the time to ensure that all the Talks are conducted in time, without any deviation from the scheduled program. Soon, we will update you with the complete program of the symposium and it will also be uploaded on the website (News & Updates):
